## Millions in Oats and Barley.

Nothing will pay you better for 1908 than to sow a plenty of high yielding oats and barley with oats at 40c to 50c a bu. (Barley's new Emperor William Oats averaged 50 bu. per acre more than any other variety in 1907) would pay immensely while Silver King Barley which proved itself the biggest yielder at the Wisconsin Agricultural Station during 1907 if you had planted 50 acres would have given you in 1907 just \$3,500.00 on 50 acres. It is an enormous yielder.

Just send this notice and 10c to the John A. Fisher Seed Co., La Crosse, Wis., and we will mail you the only original seed catalog published in America with samples of Emperor William Oats, Silver King Barley, Billion Dollar Grass which produces 12 tons per acre, Sainfoin the dry soil luxuriator, etc., etc., and if you send the we add a package of new farm seeds never before seen by you.

## BIGGEST ARMY DEPOT TO RISE.

Government Selects Site in Frisco and Will Spend \$2,000,000.

San Francisco.—It is announced that the federal authorities have taken definite steps to secure a site here for the biggest United States army depot in the country. The institution is to be located on part of the existing army reservation at Fort Mason and then run forth on land at present submerged.

This submerged land is owned by the Dore family of this city and Mrs. Herman Oelrichs and her sister, Mrs. William K. Vanderbilt, Jr., of New York. The land is to be condemned in the United States circuit court. Assistant United States District Attorney Clark has planned a suit for that purpose.

Congress has appropriated \$1,500,000 to pay for the site and filling in the submerged section. Outside the price of the condemned land the depot with its many buildings and wharves is to cost \$2,000,000.

The site to be condemned lies between Laguna and Lewis streets and Van Ness avenue and now is a small, shallow arm of the bay, on which the headquarters of Gen. Funston looks.

It is also announced that Fort Barry is to be occupied at once by United States troops. Maj. George McK. Williamson, new constructing quartermaster at Fort Mason, has advised Gen. Funston that the quarters at Fort Barry are ready for occupancy.

## RICH; WORKS IN SMELTER.

Son of Daniel Guggenheim a Laborer in Mexican Plant.

Agua Calientes, Mex.—The many millions of dollars of wealth of Daniel Guggenheim of New York, head of the smelter trust, are not standing in the way of his son, Harry Guggenheim, in learning the practical side of the smelting business.

Young Guggenheim is working with a gang of peon Mexicans shoveling ore in the bins of the big smelter at this place. He receives the same wages as the Mexicans—one peso a day, which is equivalent to 50 cents in the money of the United States.

It is said that the young man took his position with his father's consent and that he is to work his way up through the several departments of the smelter. After finishing with the manual and mechanical sides of the business, he will enter the office and learn how the books and records are kept.

The American Smelting and Refining company, which is usually called the smelter trust, virtually controls the silver, gold and copper smelting business of the United States and Mexico. It is said that young Guggenheim is equipping himself so as to be able to succeed his father eventually at the head of the business.

He is 19 years old and is strong and healthy. He came down here in a private car and went to work the next day.

## ACCIDENT REUNITES NEIGHBORS.

One Grasps Other's Hand and Pays Back Costs of Lawsuit.

Middletown, N. Y.—Ten years ago Theodore Woolsey and Samuel Sellen, farmers, had a quarrel over a line fence which resulted in a lawsuit. Sellen was beaten, had to pay costs and vowed he would never speak to Woolsey again. The men sold their farms soon after that and left the neighborhood. Neither had seen the other until the other day, when an accident sustained by Woolsey brought about a reconciliation.

Sellen was driving along the highway when he overtook a supposed stranger whose horse had fallen in the road. He stopped and assisted him in getting the animal on his feet. When Woolsey recognized him as the man with whom he had quarreled he grasped the hand of his old enemy and exclaimed:

"God bless you, Samuel Sellen. Won't you forgive me for the wrong I did you years ago? You shall be reimbursed for all the old lawsuit cost you."

"Yes, I will forgive you," replied Sellen, wringing Woolsey's hand, "and you need not pay me either."

Woolsey insisted upon paying the money, however. The men now live in different parts of the state.

## Get Chloroform from Oaler.

Ablon, Mich.—Dr. William Oaler, the noted scientist now connected with Oxford university, who was credited with the statement that men over 60 years old were useless cumberers of the ground and ought to be removed, has sent to each of two old friends here a bottle of chloroform to help them celebrate their sixtieth birthday. The recipients of the suggestive presents are Delos Fall, professor in Ablon college and delegate to the constitutional convention, and his twin brother, D. Witt Fall of Jackson.

## THE TIME TEST.

That is What Proves True Merit.

Doan's Kidney Pills bring the quickest relief from backache and kidney troubles. Is that relief lasting? Let Mrs. James M. Long, of 113 Augusta St., Staunton, Va., tell you. On January 31st, 1903, Mrs. Long wrote: "Doan's Kidney Pills have cured me" (of pain in the back, urinary troubles, bearing down sensations, etc.) On June 20th, 1907, four and one-half years later, she said: "I haven't had kidney trouble since. I repeat my testimony."

## SHE COULD NOT WALK

For Months—Burning Humor on Ankles—Opiates Alone Brought Sleep—Eczema Yielded to Cuticura.

"I had eczema for over two years. I had two physicians, but they only gave me relief for a short time and I cannot enumerate the ointments and lotions I used to no purpose. My ankles were one mass of sores. The itching and burning were so intense that I could not sleep. I could not walk for nearly four months. One day my husband said I had better try the Cuticura Remedies. After using them three times I had the best night's rest in months unless I took an opiate. I used one set of Cuticura Soap, Ointment, and Pills, and my ankles healed in a short time. It is now a year since I used Cuticura, and there has been no return of the eczema. Mrs. David Brown, Locke, Ark., May 18 and July 13, 1907."

## Wasn't Skeptical.

"A scientist claims that rubber can be made from Indian corn," remarked the boarder who had been perusing the scientific notes in a patent-medicine almanac.

"I guess he's right," growled the scanty-haired bachelor at the pedal extremity of the mahogany. "The batter cakes we have this morning would seem to indicate as much."

## CARE OF THE KITCHEN.

Clean Walls Are an Essential to Sanitary Cooking.

It is not only important to know how to cook, but it is equally important to know where to cook. Cooking in a dirty kitchen can never produce good food. The idea is simply preposterous, yet kitchen walls are left for months—sometimes for years without cleansing.

In the first place the kitchen wall should have a light tint that the merest fleck of dirt can be seen; that the sheerest cobweb can be brushed away; that the tiniest water bug can be discerned. It is all folly expecting clean food in a kitchen with dirty walls.

Never put a wall coating on a kitchen wall that is mixed with hot water or that has glue in it, or sour milk in it if mixed with cold water. Glue walls made from horses' hoofs colored up with cheap colorings do not indicate good housekeeping. The glue is constantly flaking off, falling into the food and the idea of food flavored with glue made from horses' hoofs is not appetizing.

Kitchen walls to be thoroughly satisfactory should be alabastined the same as every other wall in the house. They should be coated regularly in the spring and fall of each year with a light tint.

The care of the pantry requires constant attention. The walls should be brushed over every year, the dishes removed from the shelves which should be thoroughly wiped with hot water. If there are ant holes or any other insects in the pantries a thick putty of the wall coating can be made and all the ant holes, even small mice holes can be filled with it which will protect the pantry from the incursions of disagreeable insects and mice.

## This Cold World of Business.

The messenger boys paused outside the Army building, says the New York Sun. One of them was selecting a cigarette from a box.

"Gimme one," said the smokeless boy.

"Now," said the other, "they cost money."

"I'll owe you a cent," said the first boy. "Come on, I'll pay you after."

"They cost more than a cent," said the boy with the cigarettes. "Nothin' doin'. Your credit ain't no good."

And they parted.

"Leo's Analysis of the Creation, or Eye the Heroine of Eden, When Knighthood Was Not in Flower." (Contains The Most Complete Marriage Ceremony with No Unequal Covenants.) (A Sacred Classic.) By VICTOR LEO SCOTT, Author of Scott's Digest of Things That Are Printed in Small Type. The work contains a Scientific-Natural Analysis of the Proprietor's Medical Account of The Creation, and "His and Her" variable. Ties to Life as THE HUSBAND'S KISS THAT BRINGS A VEIN OF AN ARTHUR. HIS WIFE'S PAIN DISSECTS AND EXHIBITS THE ANCESTRY OF THE EYE. And proves that our Unequal Marriage Vows are relics of barbarism over 200 years old, merely tolerated because modern thinkers have not dared to think aloud. A contrast to love, an enemy to love. A covenant to obey, the inspiration to rebel. "To have and to hold" are the terms of barter and sale, adopted when women were sold from the block and conveyed to the hands of their masters. The new ceremony appeals to the heart and reason of the world. Now adopted by advanced thinkers.

# HELPFUL ADVICE

You won't tell your family doctor the whole story about your private illness—you are too modest. You need not be afraid to tell Mrs. Pinkham, at Lynn, Mass., the things you could not explain to the doctor. Your letter will be held in the strictest confidence. From her vast correspondence with sick women during the past thirty years she may have gained the very knowledge that will help your case. Such letters as the following, from grateful women, establish beyond a doubt the power of

# LYDIA E. PINKHAM'S VEGETABLE COMPOUND

to conquer all female diseases.

Mrs. Norman R. Barndt, of Allentown, Pa., writes:

"Ever since I was sixteen years of age I had suffered from an organic derangement and female weakness; in consequence I had dreadful headaches and was extremely nervous. My physician said I must go through an operation to get well. A friend told me about Lydia E. Pinkham's Vegetable Compound, and I took it and wrote you for advice, following your directions carefully, and thanks to you I am today a well woman, and I am telling all my friends of my experience."

# FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration.
